## Monitoring and Evaluation Definitions

**Activities** — Actions taken or work performed through which inputs such as funds, technical assistance, and other types of resources are mobilized to produce specific outputs.

**Assumptions** — Hypotheses about factors or risks which could affect the progress or success of an intervention. Intervention results depend on whether or not the assumptions made, prove to be correct.

**Goal** — An aim or desired result

**Impact** — The long-term, cumulative effect of programs/interventions over time.

**Indicator of Progress** — A concrete way of measuring performance.

**Inputs** — The financial, human, and material resources used in a program/intervention.

**Outputs** — Products, goods and services resulting from an intervention.

**Outcomes** — Short, medium or long-term effect of an intervention's outputs, such as change in knowledge, attitudes, beliefs, behaviors.

**Strategic Objective** — Highest goals of an organization.

**Target** — A measure to determine how successfully you are achieving a strategic objective.

**Theory of Change** — An on-going process of reflection to explore change and how it happens – and what that means in a particular context, sector, and/or group of people. A theory of change is a structured way of thinking about the change and impact organizations would like to achieve that involves an integrated approach to program design, implementation, M&E and communication.

**Examples:**
- **Activities**: trainings
- **Assumptions**: Training individual sisters increases organizational capacity
- **Goal**: improved technical management skills
- **Impact**: Effective human development services and ministries that improve lives of the vulnerable and disadvantaged.
- **Indicator of Progress**: number of research papers published or presented
- **Inputs**: staff time
- **Outputs**: post-secondary degrees
- **Outcomes**: increased financial capacity of a congregation
- **Strategic Objective**: Strengthen the services provided by Catholic sisters to vulnerable people in measurable ways at scale
- **Target**: 5000 students of low-income households and their families served in Catholic school communities in the Archdiocese of Los Angeles.
- **Theory of Change**: The theory of change underlying the Catholic Sisters Strategic Initiative posits that the strength and vitality of sisters’ internal systems and organizations will enable them to be publicly recognized, respected leaders for their work with those who are vulnerable and disadvantaged.
Theory of Change

ASSUMPTIONS

Strategic Objectives

Indicator of progress

inputs → activities → outputs → outcomes → impact
